Model Name	Model No.
• Water Chiller Capacity 1 Ton	LWC-WP-00-1000KW
• Water Chiller Capacity 2 Ton	LWC-WP-00-2000KW
• Water Chiller Capacity 3 Ton	LWC-WP-00-3000KW

Health Benefits of Cold Therapy

LUMEA
WELLNESS

For Home • Gym • Spa • Sports Clinic • Wellness Centre

Cold water immersion has been used by athletes and wellness practitioners worldwide for its remarkable physical and mental recovery benefits. Our Water Chiller delivers consistent, precise temperatures for a transformative ice bath experience.

Muscle Recovery

Reduces soreness, speeds repair and helps flush out lactic acid after intense workouts.

Inflammation Relief

Cold immersion constricts blood vessels, reducing swelling and acute inflammation fast.

Performance Edge

Regular cold exposure trains resilience, boosts adrenaline and sharpens mental focus.

Mental Clarity

Triggers norepinephrine release — improving mood, focus and overall cognitive function.

Cardiovascular

Cold therapy trains vascular response, improving circulation and long-term heart health.

Immune Boost

Activates immune cells and increases white blood cell count with regular cold sessions.

Better Sleep

Post-cold rewarming signals deep sleep — enhancing recovery and restoration overnight.

Skin & Tone

Cold water tightens pores, boosts circulation and gives skin a healthy, firm appearance.

Metabolism Boost

Activates brown fat, increasing calorie burn and metabolic rate during and after sessions.

Stress Resilience

Regular cold exposure lowers cortisol over time, building natural stress resistance.

◆ Ideal For ◆

Home & Apartment

Gym &
Fitness Centre

Hotel & Resort

Spa & Salon
